The University was awarded with an 'E-LEAD Certification' by the 'QS I-Gauge Indian College and University Rating' for successfully engaging its students & faculty through virtual media with the required IT support, systems & policies. This certification recognizes the prowess of our digital infrastructure. The award captures the essence of the dynamic Indian education system and conforms to international standards and best practices.

The globally acclaimed GPTW Institute, USA, has certified UPES as a 'Great Place to Work' (GPTW) for the third time in a row. The certification is a Gold Standard for defining great workplace across business, academia and government organizations. The certification methodology involves comparison of work culture with competitors, commitment to employees about improving workplace culture, projecting the Brand externally, attract & retain talent, trust levels between the organization & the employees and the employee's perception of various HR initiatives.

The University organized its 18th Annual Convocation for the batch of 2020 at the Energy Acres Campus on 19th August 2021 among the gracious presence of Shri Alok Ohrie – President & MD, Dell Technologies India as the 'Chief Guest' and our alumni Shri Anmol Singh Jaggi - Founder & MD, Gensol Engineering Ltd. as the 'Guest of Honor'. VICE CHANCELLOR'S MESSAGE

I am delighted to present the UPES Annual Report for the academic year 2020-21. The year proved to be challenging however rewarding with many milestones and achievements earned on numerous fronts. All this was the result of the sustained hard work, diligence and brilliant performances by each and every member of our UPES family. My heartiest congratulations and appreciations to them all.

Among the various remarkable awards and recognitions achieved by UPES during 2020-2021, the **National Assessment and Accreditation Council (NAAC) Grade 'A' Accreditation**, the **National Board of Accreditation (NBA)** accreditation of seven of our UG programs in B.Tech viz. Automotive Design Engineering, Chemical Engineering - (Refining and Petrochemicals), Applied Petroleum-Gas Engineering, Mechanical Engineering, Mechatronics Engineering, Fire & Safety

Engineering and Civil Engineering (Specialization in Infrastructure Development) and the **University of the Year (North) Award by ASSOCHAM** at the 14th National Education Summit 2021 deserve a special mention here.

Our participation in **NIRF-2021** Rankings too were rewarding with the University being ranked among the top 100 Universities in India and 25th for Law, 46th for Management and 91st for its Engineering programs among the categories. An overall 4-Star Rating in QS Stars Ranking with '5-Star' Rating in Academic Development, Employability, Facilities and Program Strength speak further about credibility attained by UPES.

The University attained the '**1st Rank**' in the '**Best Academia Industry Alliance**' category besides receiving **International Accreditation Council for Business Education (IACBE)** for MBA Programs in 'Oil & Gas Management' and 'Logistic & Supply Chain Management'. UPES received the coveted **Bureau Veritas Safeguard Certification** for maintaining safety and hygiene provisions to fight against the COVID pandemic in its campuses. **UPES School of Law** featured in the '**Legal Power List 2020**' as one of the **Top Law School by Forbes**. The University launched '**Srijan**', one of the biggest **Social Internship Programs** in the country through its 'School for Life' that was formally inaugurated by the then Hon'ble Chief Minister of Uttarakhand, Shri Tirath Singh Rawat. Through 'Srijan', over 3000 first year undergraduate students of UPES will undergo a mandatory six week-long social internship program with one of the 350+ NGOs partnered by UPES across the nation with an objective of creating a positive social impact.

The University carried forward its endeavors to promote excellence in higher education for a vibrant & inclusive society through creation and dissemination of knowledge while making sincere efforts to contribute its might by providing the right kind of human resources. The University believes in pursuing a holistic approach of learning as education, bereft of values, is meaningless and not worthy of promotion. We encourage our students to go beyond the curricular activities and participate in co-curricular, extra-curricular and extension activities as Education, in its true sense, is meant to inculcate right values among students and help produce socially sensitive citizens.

At UPES - research, consultancy and innovation are regarded as pillars of success and UPES has strong ecosystem to support them. The University recorded significant increase in publications in Scopus and Web of

At UPES, placements and employability of our graduates is a key outcome. We closed the 2020-21 academic year with 93.88% placements of our eligible students. 2178 students received 3010 offers and were placed in 543 companies across the country despite the COVID pandemic striking at the time when the placements drive at UPES were at its peak. A multi-pronged strategy based on the thorough assessment of the situation and analysis of the recruiters' sentiments helped students in navigating the unforeseen circumstances. Over 2800+ internships, mostly virtual, were arranged for the students to get real-time experience and put their knowledge and skills to use. Specific training interventions targeting cross-functional expertise were planned to enhance their employability quotient. The university also provided the students access to online learning platforms like Coursera and encouraged them to pursue certification courses to gain additional expertise in their core and allied fields. The 'EDGE' (Enhanced Development for Growth and Enrichment) initiative by UPES supported the students in their chosen fields with a focus on key action areas - entrepreneurship, exam pathways (such as Services Selection Board for Indian Armed Forces) and employability.

Students' welfare has always been amongst a top-most priorities at UPES. Recognizing the impact of the pandemic on our students and their families, UPES undertook several initiatives to support them emotionally, mentally, physically and financially. Numerous proactive measures were taken to prioritize the health and safety of our students, faculty, staff and the community at large. In May 2021, UPES contributed 70 Nos. Oxygen Concentrators to the Hon'ble Governor – Uttarakhand, Hon'ble Chief Minister - Uttarakhand and the Military Hospital, Dehradun for supporting the state population residing in villages at the remote hilly terrains of Uttarakhand and emergencies in the state hospitals.

UPES continued '**We Care**' - a 24x7 counselling support for our students, faculty, staff and their families to address issues related to emotional well-being in these crisis-ridden times during this year too. 'We Care' officers and doctors were designated 24x7 to assist the employees and their families during medical emergencies, hospital assistance, consultations related to nutrition and diet, home care facilities, tiffin services and many more. A new **health initiative 'Sanjeevani'** was launched by the University through which our students and employees can avail all services of **Practo** - *a patient focused, unbiased, independent medical website with over 100,000 doctor profiles from across India and Singapore at no cost.*

UPES carried out 'Free' Covid Vaccination drives on a regular basis at its campus for its staff & faculty and the local rural population. The University provided 1000 Dry Ration Packets, each containing a weeklong ration for a family of four, to Hon'ble Governor, Uttarakhand for distribution at six rural locations in the district. Multiple Healthcare Camps were carried out to benefit the residents of the twin villages of *Koti&Dhalani* in *Sahaspur* Block as part of our passion for making a meaningful impact on the communities and people around us and transforming their lives for the better through extension activities.

The list of our accomplishments is long while that of our dreams for the future is even longer. We remain committed to attain greater heights as we progress further in our journey and raise the benchmark of excellence in the year 2021 and beyond as we are '**In It To Win It!**'

BLACKBOARD

A state-of-the-art mobile enabled digital learning and collaborative platform ('Blackboard') has been implemented. 'Blackboard' as Learning Management System tool is used in some courses for Hybrid – Blended teaching and learning. The features are mentioned below

- Blackboard Collaborate is majorly used for synchronous sessions. Lectures are being recorded for students to review and listen to lectures offline. In some courses, content is being used for asynchronous sessions. Reporting features are also available only for individual courses
- Management – Course Reports, Performance Dashboard, Retention Center
- Information – Email, Calendar, Announcements, Tasks, My Grades, User Directory
- Content – Course Structure, Lesson Content, Weblinks, Links to media, Multimedia content is developed by UPES faculty members on LMS - Blackboard
- Collaboration – Discussion Boards, Blogs, Wikis, Journals
- Assessment is used for conducting Class Tests, Online Tests, Assignments, Rubrics, Grade Center Supplementary Examinations, Mid-term Examinations and End Semester Examinations for non-graduating batches
- Kaltura – Video Recordings
- Respondus – Online Proctoring for Assessments

Blackboard was relied upon heavily to conduct online classes in response to the pandemic and continues to be a mission critical technical platform for UPES.

UPES is seen as a leader and exemplar in the Blackboard community in India, which contributes to the brand and reputation of the university. UPES has been recognized with 3 Catalyst Awards in the year 2021.

- One for 'Leading Change', this award honours institutions who are at the forefront of educational innovation.
- One for 'Optimizing Student Experiences', this award honours institutions whose educational and administrative innovations have markedly improved the total learner experience.
- One for 'Teaching and Learning', this award recognizes those who have adopted flexible distance and online delivery, including using mobile technologies to positively impact the educational experience.

FACULTY FEEDBACK

In order to ensure that students have an enriching learning experience, UPES has implemented a certain Quality Assurance Systems and procedures. In particular, to ensure the quality of teaching, learning and assessment, including other support facilities (Campus, Infrastructure, IT services etc.). The University collects feedback from various stakeholders (Alumni, Faculty, Students and Employers) for the purpose of continuous quality improvement in the courses taught and other facilities.

The feedback helps us to consider concerns and difficulties of students, if any, and plans improvements that may be necessary to enrich the teaching learning experience. Students' feedback helps UPES work towards higher excellence of self-correcting and self-perfecting.

The University Academic Monitoring System operates through a unified portal to enable online and accurate feedback to different levels of hierarchy for timetable implementation and the student's attendance.

To ensure the quality of teaching, learning and assessment, UPES collects feedback once in a semester from students for the purpose of continuous quality improvement in the courses taught. The Teaching and Learning Feedback Questionnaire has three sections, namely, Teaching & Learning, Course Structure and Design and Overall Quality of the Course. Feedback Questionnaire is made available on the student portal just after the mid semester examinations and remain there for a duration of three weeks. The Academic Planning and Monitoring Team consolidates parameter wise data and analyzed data output is shared with HR Department, Academic Strategy Team and Schools and Departments for their further action.

RESEARCH AND DEVELOPMENT

A University's worth, it's 'greatness', should be judged by its value to the society. Since its establishment, UPES has been among India's pioneering innovation driven University with fine tradition of developing research culture in the organization by creating dedicated research centers and winning several research projects from National and International Funding Organizations; both in the public and private sectors.

UPES has a strong ecosystem to support innovations and research. To foster a research culture that provides solutions through innovative applied research to society and intellectually stimulating environment for research faculty; UPES has developed a commensurate research policy:

- Expansion of research databases through subscription of SCOPUS, Science Direct, Web of Science, Emerald Insight, EBSCO, IEEE etc.
- Provision of SEED grant for undertaking interdisciplinary and innovative research projects.
- Student support for research through a scheme 'RISE' (Research and Innovation for Science and Engineering) & SHODH to test the feasibility of their innovations.
- Talks, lectures from eminent researchers, conference, seminars etc.
- Establishment of Centre for Interdisciplinary Research and Innovation (CIDRI), Machine Intelligence Research Centre (MIRC), Centre for Alternative Energy Research (CAER) and Speech and Language Research Centre (SLRC).
- Financial support for attending national and international conferences etc.
- Rewards & Recognition Policy & Research Advisory Committee

RESEARCH CENTERS

- **Centre for Interdisciplinary Research and Innovation (CIDRI)**

Centre of Inter-disciplinary Research & Innovation (CIDRI) at UPES provides a platform for interaction across the boundaries of various disciplines – such as Science, Engineering, Health Environment, Computer Science, Design, Management, Humanities, Law, etc. – and address the key technical, organizational and logistical challenges that currently hinder truly transdisciplinary research.

CIDRI promotes and facilitates the interfacing and collaborating with industries, clinicians and doctors in hospitals for translational research, research groups of prominent national and international universities/institutes. CIDRI aims at bringing together the researchers in the field of basic sciences, all streams of engineering, artificial intelligence, machine learning along with experts of design as well as business and law so as to finally emerge with a product with intellectual property rights and business plan.

- **Central Instrumentation Centre (CIC)**

Central Instrumentation Center (CIC) was inaugurated by “Padma Bhushan Dr. R. Chidambaram” on 27th February 2014. • **Waste Paper Recycling Laboratory**

Primarily focus of this Research Laboratory is on waste paper recycling. The rationale of this focus stems mainly from the fact that the world consumption of paper products is massive and therefore the Disposal problems are enormous; traditionally involving either incineration or landfill.

Our basic idea was to bring a balance between the environment and the use of technology for the economic independence of rural women. This project aimed to help rural women from the indigenous community to earn a fair wage by teaching them how to make high-quality goods using waste paper viz **paper pencils**, jewellery, stationery items, etc.

In a lab a set of six machines is required (Figure 1). Rolling Machine, Oven, Cutting machine, Abrading Machine and Coating Machine

Cost: The cost of machines is around 9.5 lakhs [Including about 50kgs of gum and 10 cartons [3500 of HB lead per carton].

• **Medicinal Plant and Aromatic Plant (MAP) Lab**

The Medicinal and Aromatic Plant Laboratory is developed under DST funded project *Rural Women Technology Park* of UPES, (2015-2018) SEED Division DST, GoI. The objective of the lab is to do Extraction of essential oil of medicinal and aromatic plants and to conduct comparative study of yield of essential oil from different land pattern.

Under this Lab the primary screening of natural compounds from medicinal and aromatic plant is carried out. MAP Lab facilitates the antimicrobial, antifungal, and antibacterial studies of extraction of MAP species. The Lab is equipped with Soxhlet assembly, Rotameters, Clevenger unit and Steam distillation (Autoclave) unit, soil and water testing kits which are used for the extraction of essential oil of lemongrass, stevia, Tulsi, Chamomile.

The University has also established polyhouse and nurseries for the cultivation of medicinal and aromatic plants. Under this project, we give training and technical backup support to rural women farmers to cultivate medicinal and aromatic plant species Tulsi, Chamomile lemongrass, Stevia species in nearby villages i.e Than goan, Birsani, Doonga and Masraajpatti.

MENTOR – MENTEE PROGRAM

UPES has adopted Mentor-Mentee System in all Schools. As per the UPES Mentor-Mentee policy, each student will be assigned a Faculty Mentor upon his / her joining to UPES. The Faculty Mentor shall have an advisory role and will guide / assist the student in the pursuit of his / her academic career throughout his / her tenure at UPES. Students are expected to consult their Faculty Mentors on any matter relating to their academic performance and the courses they may take in various semesters / summer terms. The Faculty Mentor is assigned to extend guidance to the students enabling them to complete their courses of study for the required degree in a smooth and timely manner. The Faculty Mentor is the person to whom the parents / guardians should contact for performance related issues of their wards.

A Faculty Mentor is expected to:

1. Guide a student on rules and regulations of the academic programme
2. Pay special attention to the academically weaker students
3. Guide and liaise with the parents of students
4. Monitor and analyse performance of the students on regular basis
5. Encourage students to satisfy the mandatory attendance requirement
6. Analyse and try to solve personal problems of the students
7. Record all the activities in the Mentor diary, in the prescribed format

Each student shall register for a set of courses as advised by his / her Faculty Mentor at the commencement of every semester. Students with backlog should continuously seek help from their Faculty Mentors. The University shall also communicate to the parents / guardians regarding performance of their ward by scanning copy of grade card at the end of each semester.

STUDENT INDUCTION / ORIENTATION PROGRAMS

UPES conducts a student orientation program to create an atmosphere that can reduce the anxiety associated with the transition from school to college, promote a positive attitude and stimulate an interest in learning. It creates a welcoming atmosphere for students and families to meet faculty, staff as well as other new students.

During the time of COVID. We realized that the priority of the moment is to combat this post-pandemic stress, so we tried to turn this year's orientation to be more of a stress buster than being only informative. This program was also a testimony that how students can continue with their learning even during uncertainties.

We Planned and executed the following events:

- Knowing your University
- Interaction with Leadership
- Interactive Workshops Series
- Academic Interface
- Industry Interface and Interaction with Industry Leaders
- Meeting with Star Alumni
- Cultural Extravaganza

GRIEVANCE REDRESSAL

The University is very meticulous when it comes to redressing the student grievances related to academic and non-academic matters. There is robust and transparent Grievance Redressal mechanism which is in practice to ensure that the grievances are resolved promptly, neutrally and in complete confidentiality. The primary objective is to introduce a fair, impartial and consistent mechanism for redressal of various issues faced by the students/parents in accordance with UGC guidelines. While this platform allows all students to voice their concerns, it is imperative that the concern must qualify as a grievance, that is serious enough to deserve the attention of the Committee. A Grievance Redressal Committee is constituted in order to address the grievance and ensures speedy resolution of the problems / complaints / grievances including sexual harassment and ragging cases.

UPES COUNCIL FOR INNOVATION AND ENTREPRENEURSHIP (UCIE)

The sentiments of not being afraid of your dreams and making it to a reality has been an integral part of the ethos and culture of our Incubation Center and the entrepreneurs it fosters. The past year has been encouraging yet challenging times for our students and startups alike. However, our entrepreneurs have thrived during these testing times with the help and support of our Incubation Center. Our startups are trying to make a positive impact on the society by providing intelligent and ingenious solutions. They have gathered accolades from the President of India, raised 8 figure funding, and gained international recognition. When the world stood at a standstill during the ongoing pandemic, our entrepreneurs seized this opportunity to provide various services to help and protect our near and dear ones. They provided door-to-door services for medicines, medical supplies, and essential items.

Our Incubation Center delivers a thought-provoking and problem-solving environment with mentoring support to foster entrepreneurship on the campus. They incubated 17 legal entities last year while evangelizing thousands of students and screening various ideas. The Incubation Center is a crucial stakeholder in the local ecosystem as a nodal agency and recognized business incubator by the Government of Uttarakhand.

They have ties with stakeholders of the National Startup ecosystem like WE- HUB, Here Technologies, Shell, TiE Chapter, and Atal Incubation Centers. With the help of these stakeholders, the Incubation Center conducted various successful events such as UDYAM - A preincubation Program attended by more than 100 aspiring entrepreneurs and featured mentorship from Vice President, PayTm and members of the Indian Angel Network. Webinars and workshops from Founders and Co-founders like Mr. Avelo Roy, Mr. Vikram Duggal, and Mr. Dilnawaz Khan to evangelize students about the different facets of entrepreneurship.

The Incubation Center aims to aid students in their personal and professional growth to benefit the startup ecosystem. Courses such as 'Venture Ideation' and 'Start your Startup' are helping the students to know about entrepreneurship, leadership, and team building. Entrepreneurship Cell - UPES, is a student organization governed and run by the determined students who work together in co-ordination to redeem and realize entrepreneurial spirit by creating an entrepreneurial environment through workshops, events and sponsor session with sharp networking, consultancy and mentoring.

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of University of Petroleum & Energy Studies (University), which comprise the Balance Sheet as at 31st March 2021, the Statement of Income and Expenditure for the year ended, and a summary of the significant accounting policies and other explanatory information.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) in the case of the Balance Sheet, of the state of affairs of the University as at March 31, 2021;
- b) in the case of the Income & Expenditure Account, of the excess of income over expenditure for the year ended on that date.

Management's Responsibility for the Financial Statements

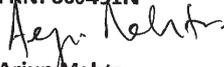

University Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position and financial performance of the University in accordance with the Generally Accepted Accounting Principles. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the University's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by trust management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Subsequent costs related to an item of Property, Plant & Equipment are recognized in the carrying amount of the item if the recognition criteria are met.

Items of fixed assets that have been retired from active use and are held for disposal are stated at the lower of their net book value and net realisable value and are shown separately in the financial statements under the head "Other current assets". Any expected loss is recognised immediately in the Statement of Income and Expenditure.

Losses arising from the retirement of, and gains or losses arising from disposal of fixed assets which are carried at cost are recognised in the Statement of Income and Expenditure.

Leasehold improvements are amortized over the term of the lease or useful life which ever is lower.

Depreciation is provided on written down value basis, as per the depreciation rates prescribed in Schedule XIV of the Companies Act, 1956/2013. The depreciation charge for each period is recognised in the Statement of Income and Expenditure. The residual value and the depreciation method are reviewed atleast at each financial year end. vii) Foreign currency transactions

Initial recognition

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Subsequent recognition

As at the reporting date, non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. All non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange differences on restatement of all other monetary items are recognised in the Statement of Income & Expenditure.

viii) Employee benefits

Provident fund: Contribution towards provident fund for certain employees is made to the regulatory authorities, where the University has no further obligations. Such benefits are classified as Defined Contribution Schemes as the University does not carry any further obligations, apart from the contributions made on a monthly basis.

Gratuity: The University provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The University's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/ gains are recognised in the Statement of Income and Expenditure in the year in which they arise.

Compensated absences: Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year end are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long term employee benefits. x) Taxation

The university has obtained exemption from Income Tax u/s 12A vide order dated 12th October, 2004. It will be in force till it is withdrawn by competent authority. No provision for income tax is therefore made in the accounts.

xi) Impairment of assets

The University assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the University estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognized in the Statement of Income & Expenditure. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to the maximum of depreciated historical cost and is accordingly reversed in the Statement of Income & Expenditure.

xii) Provision, contingent liabilities and contingent assets

Provisions: Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date and are not discounted to its present value.

xiii) Contingent liabilities: Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the University or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent assets: Contingent Assets are neither recognized nor disclosed in the financial statements.
